

'Wines of Israel'

by Eliezer Sacks & Adam Montefiore

This is the newest addition to the range of Israeli wine books. It is edited by Eliezer Sacks, of Cordinata Publishing.

Twenty years ago, Eliezer Sacks founded the Cordinata Publishing House to publish leisure and tourism books. His greatest success has been with wine books, but he has also published books on honey, olive oil and the Seven Blessed Species.

His wine books include *Shvill HaYayin* and *Yayin Israeli* in Hebrew and **The Wine Route of Israel** in English. **Wines of Israel** is the newest book in the portfolio. It is a condensed version of the Wine Route of Israel, but presented in a different way.

Adam Montefiore has written the foreword and the introductory background information covering history milestones, grape varieties, wine regions etc. He has worked over 30 years in the wine trade in both the UK and Israel and also writes on wine for the Jerusalem Post and Jewish Chronicle. He writes on the back cover: *"The quality and variety of Israel's wines remains one of its best-kept secrets. This is a compact, concise and practical guide giving an insight into the world of Israeli wine."*

Wines of Israel features a hundred wineries, both large and small, established and new. There is a page on each winery including the winery story, details of the vineyards, winemaker and wines. Each winery is accompanied by a large page sized colored photograph of a wine chosen to be representative. The book represents great value.
